The Board of Village Trustees held a meeting Tuesday evening. The deadlock over the appointment of a Water Commissioner in the place of W. Hunt Gedney, who declined to serve, continued, seven or eight ballots being taken without result. The vote stood, in every case: Frank G. Schirmer, 8; Charles P. Sherwood, 1; Elljah C. Sniffin, 1; John 2; Charles P. Sherwood, 1; Elijah C. Sniffin, 1; John Coluze, 1. The following are the members of the Commission: J. T. Lockwood, John P. Moran, George Thompson and John M. Digney. The act under which it is organized requires the Commission to meet within thirty days from the time the act became a law, and this period expires to-morrow. It is a question whether the four Commissioners who are willing to serve can organize in compliance with the directions of the law, and every effort will be made to break the deadlock and obtain the fifth Commissioner before the stipulated time expires and thus avoid any question as to the legal standing of the Commission.

ELMSFORD.

Alonzo B. Smith, the contractor, has a force of ut fifty Italians at work dredging out the Saw Mill River at Elmsford. The work is being done under the State Drainage act, and extends from East View to the milldam at Woodlands, a distance of about four and a half miles. The commission is composed of Thomas R. Hodge, Register of the County; Howard F. Balley, of Mount Kisco.

and Charles Haines, of White Plains. It has authority to issue certificates to the amount of \$87,590, but it is thought the improvement can be completed for a much smaller sum. As might be expected, there is considerable opposition to the work among the people owning property along the banks of the river, especially in the case of those who have already expended considerable money in straightening the course of the stream, and in creeting retaining walls. They say that what has already been paid out by them should be deducted in part, at least, from the amount they will be assessed for the present work. They also complain that the black mud dredged from the bottom of the stream is spread on the neighboring fields, which they consider dangerous to health and likely to cause malaria.

As the job had to be done economically owing to the state of the village treasury, the result will not be a roadhed that people will come for miles to admire. In the first place, a substrata of broken limestone was spread upon the street, the whole to be thitshed with a top dressing of Jones Point gravel. It is said that the limestone in the pavement will soon resolve itself into lime dust that in wet weather will become a stroky mass, absorbing the thin gravel coating and making the condition of the street worse than before. The trustees are probably doing the best they can with the money at their disposal, and if the present improvement proves a failure it will be a lesson to the taxpayers that poor roadmaking costs a good deal of money.

Mr. Allen denied the assertion made by his correspondent. "The party never went to defeat while it was following me," he asserted, amid laughter. "That came when some of the party left off following me and went off after riy friend Tracey, of New-York, two or three years aro, when the party ceased denouncing the crime of The assertion of the House. But, Mr. Speaker," Mr. Allen graclously continued, "I am ready again to take the lead. (Loud laughter.) It should be remembered, Mr. Allen sald, that the country is proceeding under a gold standard, whereby one dollar buys as much as two dollars used to buy, and to secure a dollar required a man to give twice as much of his labor as before. Instead of eccepting this proposition, however, sald Mr. Allen, the Congress had gone on making largely increased appropriations for itself and for other objects. A DULL DAY IN THE SENATE. THE CONTEMPT OF COURT BILL PASSED-AGREE-MENTS ON CONFERENCE REPORTS.

Washington, June 10 .- In spite of the fact that it was generally believed that this would be the last day of the session, there was a rather slim attendance in the galleries of the Senate, and the day's proceedings were devoid of interest or excitement. whenever a call for a quorum was made considerable time was spent in looking up the requisite number. There always seemed to be a feeling of doubt in the chamber that such a number could be secured, and a feeling of relief was manifested whenever the quorum was obtained.

The Contempt of Court bill was the greatest bone of contention during the day, and it was finally passed. It divides contempts of court into two classes—direct, committed in the presence of the court, and all others, indirect. Summary punishment is provided for direct contempt. The latter part of the day's session was occupied by speeches by Mr. Stewart (Pop., Nev.) and Mr. Butter (Pop., N. C.).

A concurrent resolution for final adjournment tomorrow at 4 o'clock was agreed to, and at 6:40 o'clock the Senate took a recess until \$50.

The first ripple on the placif current of inaction at the night session was caused by a motion made by Mr. Haile (Rep., Me.) to reconsider the vote by which the Senate to-day passed a bill to increase the pay of letter-carriers. Just before 11 o'clock the Sundry Civil bill and several minor bills were received from the House and immediately signed by the Vice-President The Senate then adjourned until to-morrow at 11 s. m.
